

Clinical Trial App locator on YouTube

Melbourne 03/08/2015; Cancer Trials Australia in conjunction with the Cancer Council of Victoria (CCV) released information on YouTube demonstrating the recently released App for iPhone and Android. <https://www.youtube.com/watch?v=EBxS37Jzlio&feature=youtu.be>

Marcus Clark, CEO said, "The App has been very well accepted and there has been a significant number of clinical trial investigators downloading the App for their immediate use. The video uploaded to YouTube has the Chairperson of our Phase I Clinical Trial Advisory Group demonstrating and commenting on its use. I'm sure this will be a highly used tool by clinicians to readily ascertain what trial is available and also provide a basis for referrals. Our focus at the moment is to ensure the new and closed trials are updated regularly so the data is as current as possible. We are working closely with our member sites and CCV to achieve this level of reliability."

About Cancer Trials Australia (CTA)
